

Land Partition Case Management System :

Land Partition Case Management System is a web based application developed under Open Source Technology. It is the system to process applications to partition a land survey number. The system has been implemented in Six Sub Divisional Officers offices and four Land Survey offices at Talukas of South Goa District.

- The system manages the entire work flow procedures of the land partition from inward to the final dispose of the case
- The case is registered using the system and required Notices, Memorandums, order can be generated.
- System alerts time bound dates at various stages of a case.
- Orders passed are made available online to ISLR for inspection and submit reports.
- After partition the case is forwarded back to SDO for final judgment and the copy is send to Mamlatdar Office for updating Land Records
- SMS alerts are sent automatically to collect hearing notices, orders and inspections.
- Daily administrative reports are displayed to take corrective actions.
